

PESTS THREATENING NEW YORK FORESTS

**JOIN NICHOLAS
DIETSCHLER ON
WEDNESDAY,
JANUARY 8
4:30-6:00PM**

SPEAKING OF NATURE TALK AT OUR FLCC MULLER FIELD STATION, 6455 COUNTY ROAD 36, HONEOYE

Join Nicholas Dietschler, Research Technician and graduate student with the NYS Hemlock Initiative at Cornell University, for a presentation on pests that are threatening New York State forests. Learn how non-native invasive forest pests interact with our native tree species and what we can do to slow the impacts and conserve our trees for the future. Emphasis will be placed on hemlock woolly adelgid and its threat to hemlock ecosystems. See what the NYS Hemlock Initiative and collaborators are doing to combat HWA and what the future of hemlock conservation and HWA management will look like.

Adult Leucopis

Seating is limited and reservations are required! To make a reservation, please contact Nancy Lawson at 585-785-1257 or Nancy.Lawson@flcc.edu This event is co-sponsored by Finger Lakes Community College and the Honeoye Valley Association. More information is available at www.hvaweb.org
